Project

Paddington Gardens

Paddington
London

Project Brief

Working with JRL Midgard, Thermotec were asked to provide a complete design and installation scheme, in compliance with the latest environmental and technological heating systems.

Scope of Works

Thermotec delivered a fully integrated floor build up system from the sub-floor base to the final floor screed using our TPA11 Aquafloor Cliprail underfloor heating system. The project was managed, installed and supervised by Thermotec, and was delivered on time and within budget.

Project Value: £50M

Project Details

Paddington Gardens; a contemporary development offering 335 spacious apartments, set in 3.8 acres of tranquil private gardens. The towers of Paddington Gardens step up in height towards Regent's Canal, providing elegant proportions and excellent views across London from the upper floors. Overlooking beautiful landscaped gardens, the selection of spacious 1, 2, 3 and 4 bedroom apartments and penthouses feature floor-to-ceiling windows, bespoke kitchens, engineered wooden flooring and a terrace, balcony or winter garden.

44,741m²
