Project Brief

In consultation with RG Taylor Engineering Ltd, Thermotec were asked to provide a complete design and installation scheme, in compliance with the latest environmental and technological heating systems.

Scope of Works

Thermotec delivered a fully integrated floor build up system from the sub-floor base to the final floor screed using our TPA11 AquaFloor Cliprail underfloor heating system and insulation using smart-phone operated thermostats. The project was managed, installed and supervised by Thermotec, and was delivered on time and within budget.

Project Value: £1M

Project Details

The property is situated on north side corner of Black Prince Road and Salamanca Place close to its junction with Albert Embankment. The area underwent a major regeneration to provide new luxury residential, hotels, restaurants and retail.

480 m

thermotec

Aquafloor Installation

- 1 Expansion edging strip
- 2 Screed minimum 65mm
- 3 Aquafloor heating pipe
- 4 Heating pipe rail
- 5 Foil faced insulation min 25mm
- 6 Solid sub-floor

Unsurpassed in logistics and project planning. Assured quality installations for the mechanical and electric sector.
